

Manual/automatic nozzles for DEF-AdBlue® composed by plastic and stainless steel body, equipped with fixed and swiveling rubber holder. For their features they can be applied on every type of transfer system, also working for gravity only the manual ones.

**Art. 099-5199-000 Manual plastic nozzle “AD90” for DEF-AdBlue®**

Flow rate 90 l/min  
Viton seals  
Complete with hose-tail fitting  
Swivel connection Ø 20

**Art. 099-5200-000 Manual plastic nozzle stainless steel end “MP80” for DEF-AdBlue®**

Flow rate 80 l/min  
Viton seals  
Plastic body with stainless steel end  
Rubber holder Ø 20

**Art. 099-5205-000 Automatic plastic nozzle stainless steel end “AP80” for DEF-AdBlue®**

Flow rate 80 l/min  
Viton seals  
Plastic body with stainless steel end  
Rubber holder Ø 20

**Art. 099-5210-000 Automatic nozzle stainless steel “AD80” for DEF-AdBlue®**

Flow rate 80 l/min  
Viton seals  
Stainless steel body  
Swivel connection stainless steel Ø 20

**Art. 099-5230-000 “Gravity kit” for DEF-AdBlue® transfer**

Plastic nozzle with stainless steel end, flow rate 80 l/min, fitting d.20 “MP80”  
Fitting for external connection for IBC S60x6  
PVC spiral hose d.20x25 3 m length  
Stainless steel clamps 20x32 mm

**Art. 099-5250-000 Magnetic adaptor for DEF-AdBlue® tank**
